

## Work with GUSEC Startups!

### 1. React Native Mobile Developer

@ Pathya [<https://www.pathya.app/>]

Employment Type: Full-time

Apply within: 1 month

Location: Work from Home

Salary: 3-6.5 lakhs per year

Experience: 2-4 years

#### Description

Pathya is looking for a React Native developer interested in building performant mobile apps on both the iOS and Android platforms. The candidate will be responsible for architecting and building the application *pathya.app* and dedicated to *creating and applying* and coordinating with the teams responsible for other layers of the product infrastructure. Building a product is a highly collaborative effort, and as such, a strong team player with a commitment to perfection is required.

#### Roles and Responsibilities

- Build pixel-perfect, buttery smooth UIs across both mobile platforms.
- Leverage native APIs for deep integrations with both platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.
- Reach out to the open-source community to encourage and help implement mission-critical software fixes React Native moves fast and often breaks things.
- Maintain code and write automated tests to ensure the product is of the highest quality.
- Use exciting app build in swift and Kotlin and convert it to react-native

#### Skills And Qualifications

- Firm grasp of the JavaScript language and its nuances, including ES6+ syntax
- Knowledge of functional or object-oriented programming
- Ability to write well-documented, clean JavaScript code
- Rock-solid at working with third-party dependencies and debugging dependency conflicts
- Familiarity with native build tools & library like XCode, Gradle, saga, redux, re-animated, firebase
- Understanding of REST APIs, the document request model, and offline storage
- Experience with automated testing suites

## Work with GUSEC Startups!

### 2. NodeJS Developer

@ Pathya [<https://www.pathya.app/>]

Employment Type: Full-time

Apply within: 1 month

Location: Work from Home

Salary: 3-6.5 lakhs per year

Experience: 2-4 years

#### Description

The NodeJS Developer's primary focus will be the development of all server-side logic, definition and maintenance of the central database, and ensuring high performance and responsiveness to requests from the front-end. They will also be responsible for integrating the front-end elements built by their co-workers into the application. Therefore, a basic understanding of front-end technologies is necessary as well.

#### Responsibilities

- Integration of user-facing elements developed by front-end developers with server-side logic
- Writing reusable, testable, and efficient code
- Design and implementation of low-latency, high-availability, and performant applications
- Implementation of security and data protection

#### Skills And Qualifications

- Strong proficiency with JavaScript & OOPS
- Knowledge of Node.js and frameworks available for it
- Understanding the nature of asynchronous programming and its quirks and workarounds
- Good understanding of server-side CSS preprocessors
- Basic understanding of front-end technologies, such as HTML5, and CSS3
- Understanding accessibility and security compliance
- User authentication and authorization between multiple systems, servers, and environments
- Creating database schemas that represent and support business processes
- Implementing automated testing platforms and unit tests
- Proficient understanding of code versioning tools, such as Git
- Knowledge of AWS will be preferable
