Description

Pathya is looking for a React Native developer interested in building performant mobile apps on both the iOS and Android platforms. You will be responsible for architecting and building the application Pathya.app, as well as coordinating with the teams responsible for other layers of the product infrastructure. Building a product is a highly collaborative effort, and as such, a strong team player with a commitment to perfection is required.

Roles and Responsibilities

- Build pixel-perfect, buttery smooth UIs across both mobile platforms.
- Leverage native APIs for deep integrations with both platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.
- Reach out to the open-source community to encourage and help implement mission-critical software fixes React Native moves fast and often breaks things.
- Maintain code and write automated tests to ensure the product is of the highest quality.
- Use exciting app build in swift and Kotlin and convert it to react-native

Desired Candidate Profile

- Firm grasp of the JavaScript language and its nuances, including ES6+ syntax
- Knowledge of functional or object-oriented programming
- Ability to write well-documented, clean JavaScript code
- Rock-solid at working with third-party dependencies and debugging dependency conflicts
- Familiarity with native build tools & library like XCode, Gradle, saga, redux, re-animated, firebase
- Understanding of REST APIs, the document request model, and offline storage
- Experience with automated testing suites

Perks and Benefits

- Work from home
- flexible with timing

- 5days working

Pathya trusts its employee inspires them to do innovative things and explore and execute new techniques
