About Trickee
Trickee is a B2B and B2C-focused EV infrastructure online platform to find & book slots at EV charging stations. The platform plans to fill the existing gap and make EVs more user-friendly and create more reliability on the new technology of EVs and help companies scale up their sales and infrastructure.

Job Description
Trickee is looking for someone to fit the bill for the CTO and part of the founding tech team. A very high impact, high responsibility position, with the ability to drive the product and tech vision of the startup. Work with a stellar team with extensive industry experience, trying to redefine the Electric Vehicle tech ecosystem.

Roles & Responsibilities
- Should be a hands-on Full Stack or MEAN stack coder, with experience building real-world applications.
- Graduate or undergraduate from Tier -1 Institutes (IITs, NITs, BITS, Others)
- Highly curious, ability to learn and implement new technologies independently
- High ownership and impact-driven, capable of juggling multiple things and timely deliverable focus, team leadership & openness to work in early-stage startup

Technical Proficiency - Data Analytics, Algorithms, DB, Node.js, Flutter, API, Angular2+, Web-based application development, Android and iOS development, Python

How to Apply
Applicants can mail their resumes to rhythm@trickee.co.in or send a WhatsApp text at 9426768204.
